## The Ecosystem for Entrepreneurship and Transfer of Technology between Academia and Industry in Coimbra

This 3-day workshop aims at bringing together the stakeholders on the processes for promoting entrepreneurship and transfer of technology at the University of Coimbra, with a mission of mapping the innovation ecosystem and knowledge valorization that has been steadily growing over the last decade in the city of Coimbra.

This workshop has the presence of speakers from the University of Coimbra, the “Instituto Pedro Nunes” and tech companies and startups from Coimbra.

The workshop is supported by the European project TEMPUS - Cabriolet (Model-Oriented Approach and Knowledge-Based Intelligent System for Evolvable Academia-Industry Cooperation in Electronic and Computer Engineering), managed by an international consortium of which the University of Coimbra is member.

The workshop will be attended by representatives of various international partners (universities, small businesses and professional associations in the engineering of computer systems and critical applications) and will be held between 29 September and 1 October 2014, at room E4.7 of the DEI - FCTUC.
